SWIFT'S-A SUPERIOR CLASS OF FERTILIZERS.

"Having used Swift's High-Grade 'Animal Brand' of Fertilizer, 300 lbs. per acre on a five acre piece of ensilage corn the past season, must say, notwith-standing its being a very dry season, I harvested the biggest crap of corn per acre I ever raised. It was immense, thick and well eared, averaging fully 12 feet high, after several hard frosts. I managed to get it nearly all into a 57 ton silo during two weeks settling before it froze or it would doubtless have required a great deal more room. Have also used your fertilizers on potatoes and other crops with sylendid results. splendid results.

"It is with pleasure that I give this testimonial having used Swift's Animal

Fertilizers for several years, and can say I believe them superior to any other class of fertilizers on the market, being Animal Blood, Meat and Bone, they furnish a large amount of concentrated organic matter for humus, which greatly aids in absorbing and holding moisture, thus hastening dissolution of all soil elements

"I would recommend all up-to-date, progressive farmers to try Swift's Animal Fertilizers and learn of their real merits and great value."

Nov. 16, 1909.

Wauregan has several dangerous
trolley crossings and there have been
a number of narrow escapes during
the past two years. Some of the motormen give danger signals, and all
should.

Local Producers Holding Milk Back-

Found Pair of Antiers. Many of the milk producers in this part of the town are still holding back their milk. There are 70 cans being shipped from this station, where there are usually 260 cans sent. The large shippers are holding their milk back. Charles Phillips of Plainfield was the guest of his parents on Tuesday. William Phillips recently found in his woodlot a perfect pair of large size antlers which were perfect in shape and had been recently shed.

L. C. Stocking and Frank Phillips were callers in Williamntic on Tuesday.

Mr. and Mrs. James Fitzgerald and Sadie Fitzgerald were Pomfret visit-ors on Sunday.

NEW LONDON TO BE MADE AN I. T. PORT

care a rap who prepares that news for to his Crocker house he donated quite a strip of land for the purpose of wid-ening narrow Union street and estab-fishing a building line for the future. fishing a building line for the future. The offset wall in the rear and Union street side of the postoffice extends beyond the established line. In connection with the repairs now being made in connection with the enlargement of the postoffice building a portion of this wall is being removed. Mayor Mahan has seized the opportunity to have the sidewalk widened at that point, which is now very narrow. He has taken the matter up with Postmaster McGinley, who will submit the plan with favorable recommendation to the proper government officials. This would be an improvement that is needed and its realization would be apwould be an improvement that is needed and its realization would be ap-
